

TRAITS OF A HEALTHY NUCLEAR SAFETY CULTURE

INPO / WANO / IAEA Alignment Document

This document details the core traits of a healthy nuclear safety culture:

- Personal Accountability: All individuals take personal responsibility for safety.
- Questioning Attitude: Individuals avoid complacency and continuously challenge existing conditions.
- Safety Communication: Communications maintain a focus on safety.
- Leadership Safety Values and Actions: Leaders demonstrate a commitment to safety in their decisions and behaviors.
- Decision-Making: Decisions that support or affect nuclear safety are systematic and thorough.
- Respectful Work Environment: Trust and respect permeate the organization.
- Continuous Learning: Opportunities to learn are valued and sought out.
- Problem Identification and Resolution: Issues potentially affecting safety are promptly identified, fully evaluated, and promptly corrected.
- Environment for Raising Concerns: A safety-conscious work environment is maintained where personnel feel free to raise safety concerns without fear of retaliation.
